Please do not attend more than 2 classes each day! This is for your safety and for the development of your body to the best that it could be! Overtraining is a real theory and too much of anything is not helpful. This includes training. You may choose any two classes that you would like at any point in one day. Overtraining without recovering will not allow your body to rest and heal.

If you have any questions about this, please feel free to reach out and private message me so that we can have a conversation about the topic at hand. I hope that you understand why I'm writing this and why I am doing it. Thank you for your understanding in advance.
